BMW Sound System Upgrade: Speakers & Amplifier | BimmerTech

I've done a number of E39 audio upgrades. With the BMW E39 5-series, you have 5.25"/130mm speakers in the parcel shelf on DSP cars and in the rear doors on most non-DSP cars. In the front, you have a 5.25"/130mm woofer in the door - inside a molded ABS sealed enclosure (rare in door speakers - more on this in a bit).

BMW factory audio systems explained It's critical to know which BMW audio system you're starting with! BMW has three different levels of original-equipment sound system: Base Stereo The six-speaker Stereo system has no tweeters and no amp. The speakers are powered by the head unit.

MATCH Speakers | Audiotec Fischer

BMW Sound The engineers at MB-Quart determined that a specific speaker system designed to perfectly replace the factory system would sound fantastic and improve sound quality. The subwoofer drivers have been upgraded to develop deeper bass and handle more power.

BMW E39 Speaker Upgrade for 1996-2003 E39 (Sedan/Wagon ...

I have a '97 E39 from Germany. I'm planning on upgrading my sound system and I was wondering if my car has a built in factory crossover. It has 6 speakers (2 on the front doors, 2 on the rear deck, and 2 tweeters on the front door pillars). I have a BMW factory stereo with FM and a cassette deck only. No CD changer.

BMW E39 M5 M-Audio Subwoofer Install - YouTube

In this video series you will learn how to install a subwoofer amplifier in the trunk of a 97-03 BMW 5-series/M5 (E39). This first video starts by removing the stock wiring and getting to the factory ground and LOC, then you'll start the connections and wiring for the ground for the new amp, then you'll mount the new amp and set up the connections at the amp, the next video covers the final ...

As any BMW Harman Kardon sound system review would agree, Top Hi-Fi is a significant improvement over the BMW HiFi speaker system, with more amplifier power, EQ, and additional speakers that are better quality and have higher power handling.

BMW - Products - German Audio Tech

How on earth did BMW ever get away with putting a basic sound system into a high end premium car, being the E39, was it crap when new, or has it gone bad over time, are the later e60 and f10 better. The e39 radio was built in from new possibly to discourage theft, but sound quality wise a step back from the previous e28 and e34 models.

How to Install a subwoofer amplifier in a BMW 5 series (E39)

The entire system will be powered by an a/d/s/ amp, and will use an AC502 for remote subwoofer level control This BMW system is going to sound dynamic, smooth, and musical, yet still maintain totally stock cosmetics inside the car. Equipment: 235is \$350.00/pr. 235im \$280.00/pr. A10s subwoofer(s) \$175.00/ea. P650 amp \$650.00/ea. AC 502 \$90.00/ea.

E39 Sound System Upgrade Advice Requested | Bimmerfest BMW

The MKI computer started this generation of BMW navigation systems. The MKI first appeared in 1994 in the E38 7-series, and was moved into the E39 in 1995. The MKI is the slowest system out of the four. It did the job, but took its time and lacked a lot of functionality as well as graphical features when compared to the later models.
