Lpbri wrote:I don't think on a 747-400 you can start 2 at a time. Normally you would. And normally at my ex airline you would start 3 and 4 at the same time then 1 and 2. Yup...the only time we start one at a time is an air cart or a crossbleed start. Otherwise the APU has more than enough bleed air pressure to start two at once.

Boeing: Maintenance Training
D check. Even the paint may need to be completely removed for further inspection on the fuselage metal skin. Such a check can generally take up to 50,000 man-hours and 2 months to complete, depending on the aircraft and the number of technicians involved. It also requires the most space of all maintenance checks,...
