Aero 07 - ETOPS Maintenance - Boeing ETOPS-180 was only possible after one year of trouble-free 120-minute ETOPS experience. In 1990 Boeing convinced the FAA that it could deliver an airliner with ETOPS-180 on its entry into service. This process was called Early ETOPS. The Boeing 777 was the first aircraft to carry an ETOPS rating of 180 minutes at its introduction.

than 3 million ETOPS flights have been logged using the twinjets of several manufacturers. Today, about 125 operators worldwide log an additional 1,100 ETOPS flights each day. Of this industry total, Boeing twinjets alone have performed more than 2.6 million ETOPS flights, and 94 Boeing operators fly nearly 1,000 more each day (fig. 1).

Nfpa Fire Protection Guide To Hazardous Materials PDF Download

SUMMARY : Although three- and four-engine Boeing airplanes (as well as some earlier 737s) are not specifically designed or improved for ETOPS, the ETOPS maintenance approach can be applied to those airplanes and offer operators significant improvements in reliability, performance, and dispatch rates.

Basically, ETOPS 207 (180 min + 15 percent) is an operational extension of ETOPS 180 (before ETOPS 240 and 330 were certified) to be used in case a 180-min alternate airport was not available due to some reason. From Boeing Aero: Note that 207-minute ETOPS is not subject to the new ETOPS requirements for "beyond-180-minute flight operations."
