The first GMC truck was launched in 1912 at the New York International Auto Show. Since then, GMC has produced a roster of popular models, including the Acadia, C2500 and K3500. GMC and Chevrolet trucks bare many similarities in their overall build and look, although the former is traditionally targeted at professionals.

The Chevy Astro is a full size van with seating for up to seven people. There is plenty of leg room and storage in the back for trips to the grocery store to week long camping trips. The main feature I like is the roominess for all. It's a much sturdier and stronger feeling can than most. It's like driving a full size truck.
