Howard Gardner: Five Minds for the Future / Ross Institute Summer Academy 2007

In Five Minds for the Future, Howard Gardner again proposes that we need to redefine how we see ourselves and presents the idea that there are five types of mind needed to cope with the challenges we face in the future. The first is the disciplined mind. He states that we need at least one field of knowledge in which we have an in depth understanding and a sufficient level of expertise. This forms the foundation of all that follows. The second is the synthesizing mind in which information ...
