Infinity and the Mind - Wikipedia

Infinity and the Mind: The Science and Philosophy of the Infinite by Rudy Rucker. In Infinity and the Mind, Rudy Rucker leads an excursion to that stretch of the universe he calls the "Mindcape," where he explores infinity in all its forms: potential and actual, mathematical and physical, theological and mundane.

Infinity and the Mind: The Science and Philosophy of the ...

It is in the realm of infinity, he maintains, that mathematics, science, and logic merge with the fantastic. By closely examining the paradoxes that arise from this merging, we can learn a great deal about the human mind, its powers, and its limitations.

Books similar to Infinity and the Mind: The Science and ...

In the realm of infinity, mathematics, science, and logic merge with the fantastic. By closely examining the paradoxes that arise, we gain profound insights into the human mind, its powers, and its limitations. This Princeton Science Library edition includes a new preface by the author.

Which brings me back to your book on infinity and the mind. For me, one of the most interesting passages was your insight into how Goedel's Incompleteness Theorems opens up the world to the possibility of freedom, which to me is similar to how the Heisenberg Uncertainty Principle does the same in physics.
