Lecture 2: The Command Prompt | Videos | Library ...

This is an accelerated introduction to MATLAB® and its popular toolboxes. Lectures are interactive, with students conducting sample MATLAB problems in real time. The course includes problem-based MATLAB assignments. Students must provide their own laptop and software. This is great preparation for classes that use MATLAB.

INTRODUCTION TO MATLAB FOR ENGINEERING STUDENTS

Lecture slides from 6.057 Introduction to MATLAB. X Exclude words from your search Put - in front of a word you want to leave out. For example, jaguar speed -car

YOSSI FARJOUN: This is Dr. MATLAB, Lecture 1--Using MATLAB for the First Time. When you turn MATLAB on for the first time, you'll be greeted with a window that looks like this. The first thing we do is close all the windows that we don't need initially--Current Directory, Workspace, and Command History. We're left with a command window. This is ...

Engineering CEE 20: Engineering Problem Solving. Lecture 1. Introduction to MATLAB, Part I

Introduction to MATLAB Programming: Lecture 2: The ...

MATLAB is the program we're going to use to implement and to analyze our mathematical models. So we're going to start off by showing you some of the basics of MATLAB, showing you how to use this, this software package and like I said this is the first lecture out of four. They're going to focus on computing with MATLAB.

Chapter 1 Introduction to MATLAB - MATLAB & Simulink

6/12/2014 4 Lecture 2 Slide 7 Scripts Vs. Functions Script Files Instead of typing all the commands at the command prompt, you can type them into a text file and then run the code when you are done. MATLAB behaves just like you typed the commands at the command prompt, but scripts let you go back and edit what you have done. • Script files share memory and variables with the command window.
