~~Linked : how everything is connected to everything else ...~~

Albert-László Barabási's *Linked* reveals the next major scientific leap: the study of networks. We've long suspected that we live in a small world, where everything is connected to everything else. Indeed, networks are pervasive--from the human brain to the Internet to the economy to our group of friends.

~~Editions of Linked: How Everything Is Connected to ...~~

Interdependent Universe: Everything is Connected. Likewise, a mature human being naturally develops a responsibility for the power they wield. Our quest should be the integration of science and spirituality, of nature and the human soul, a vision which reminds us of our connectedness to the inner self, to each other, and to the planet.
