~~Doing More With ...~~

Performance metrics  
are defined as figures  
and data

representative of an  
organization's actions,  
abilities, and overall  
quality. There are  
many different forms of  
performance metrics,  
including sales, profit,  
return on investment,  
customer happiness,  
customer reviews,  
personal reviews,

KPIs (or Key Performance Indicators) are used to measure strategic objectives, that is,

monitoring where an organisation is now in relation to where it wants to be in the future. KPIs can also be used to measure operational objectives, that is, monitoring the internal operational delivery on a daily basis.
