The book also positions the British experience within the context of European decolonisation and contains many documents which have only recently become available. Introducing the reader to the key debates it the ideal introductory text on the subject.

**The Political Economy of the British National Health ...**

In this groundbreaking book, Mark Garnett charts the changes in British politics, society, and culture since 1975. This volume breaks with the traditional approach to history by addressing the reaction to change through themes like lust, greed, fear, and charity, while at the same time retaining a sense of chronological progression.

**Nagasaki - The British Experience, 1854-1945 | brill**

Concise and accessible, this guide provides an overview of the process of British decolonisation. Dr White synthesises recent historical debate by looking at the demise of British imperial power from three main perspectives: the shifting emphases of British imperial policy; the rise of populist, colonial nationalism, and the international political, strategic, and economic

The French and British Experience, 1945-1975 · Princeton ... Professor Freeman finds that by 1975 both Britain and France had instituted tightly controlled, racially discriminatory, temporary contract-labor systems. Despite this basic similarity, however, he notes three distinctions between the two cases: while the French attempted to adapt ...

A distinguished work that describes and analyzes the postwar decades with wit, pungency and unconventional intelligence. In brevity and scope, in judgment and flair, it will be hard to surpass. The record that emerges is mixed. While "the principal weaknesses of postwar Britain are inequality and secretiveness . . . British democratic instincts and institutions remain intact."
