Pirate relic and data sites can be found in all normal space regions, as well as in C1, C2 and C3 class wormhole systems. There are pockets of space populated with a variety of cosmic structures (i.e., wrecked stations, abandoned machines) and several containers that need to be hacked before the contents can be accessed. The sites do not have any triggers or NPC defenders.

When the lone ship met pirates, the captain decided to ground the Consolacion on Santa Clara island, nicknamed Isla de Muerto (Island of the Dead), but struck a reef in the process. The vessel was evacuated and intentionally set on fire by the crew to prevent the plunder of treasure; Consolacion coins are thus true pirate treasure coins.
