magnetic field around the wire. This field can be used to measure an unknown magnetic field by the following manner. If the coil of the tangent galvanometer is aligned with an unknown field and the current is on, the two magnetic fields will add to give a resultant field. The needle of the tangent galvanometer will line-up with this resultant ...

[Earth's Magnetic Poles May Be Trading Places, Scientists ...](#)

The Earth's magnetic field does not directly affect human health. Humans evolved to live on this planet. High-altitude pilots and astronauts can experience higher levels of radiation during magnetic storms, but the hazard is due to the radiation, not the magnetic field itself. Geomagnetism can also impact the electrically-based technology that we rely on, but it does not impact
